

# 2010 » CAPITAL CONNECTIONS INVENTORY

An inventory of financial programs  
for economic development in the  
8-County Madison Region.

Thrive staff is here to help businesses  
and communities identify financial programs  
that help them meet their economic goals.

# Capital Growth Initiative: Capital Connections Inventory

## What Is It?

Thrive has created this comprehensive inventory of financial tools available for businesses and economic development projects in the 8-county Madison, Wisconsin Region. The inventory includes over 350 financial programs available at the federal, state and local levels to businesses, communities, and nonprofits.

## Why Is This Important?

One of the barriers that companies and communities face when seeking economic development funding is the lack of concise, accessible information – there just isn’t time to identify and understand each of the hundreds of programs that are available. This inventory, coupled with Thrive’s expertise, will allow businesses and communities to quickly identify appropriate financial resources.

## How Does It Work?

This inventory includes a brief description and basic eligibility criteria for each program. It also includes typical program terms such as loan or grant amounts, loan amortization periods, interest rates, and contact information. When a business owner walks through the door at Thrive, they will know what is available and if their project is eligible. If the business chooses to seek funding, it will receive skilled and informed support from the staff at Thrive.

## Using This Book:

On the following pages you’ll find tables of contents organizing the information by:

1. agency administering program
2. type of support
3. sector

Each entry cites a program number that corresponds to the program numbers in the left column of the inventory.

Existing regional businesses, businesses interested in locating in the region, and local communities are encouraged to contact Thrive for assistance in accessing the region’s diverse financial resources.

PROGRAM	SBA Export Express Program - a 7(a) Loan Program
SECTOR	BUS
TYPE OF SUPPORT	Loan
AMOUNT - HIGH	\$250,000
DESCRIPTION	SBA Export Express helps small businesses develop or expand their export markets. The program provides exporters and lenders a streamlined method to obtain SBA-backed financing for loans and lines of credit up to \$250,000. Most banks in the U.S. do not lend against export orders, export receivables or letters of credit. SBA temporarily provides lenders with up to a 90 percent guaranty on export loans as a credit enhancement to encourage participating banks to make loans that make the necessary export financing available.
TARGET AREA	Regionwide
ELIGIBILITY/PROCESS	SBA Export Express loans are available to businesses that meet the normal requirements for an SBA 7(a) business loan guaranty. Financing is available for manufacturers, wholesalers, export trading companies and service exporters. Loan applicants must demonstrate that the loan proceeds will enable them to enter a new export market or expand an existing export market. Applicants must have been in business, though not necessarily in exporting, for at least 12 months.

PROGRAM	Wisconsin Development Fund - Technology Matching Grant
SECTOR	ECON
TYPE OF SUPPORT	Grant
AMOUNT - HIGH	\$250,000
DESCRIPTION	Grants from state funds are issued to high-tech businesses for the purpose of securing a federal funding decision, such as a Phase II SBIR or Advanced Technology Program award. The program is often used to match SBIR grants. Funding will not be given until approval of federal application.
TARGET AREA	Regionwide
ELIGIBILITY/PROCESS	Funding of up to 20% or \$250,000 of project costs is available, including professional activities related to developing a proposed technologically innovative product, process, or service. Funds are distributed proportionately over the life of the project. Awards are contingent upon receipt of the remaining 80% of project costs from a federal early-stage award. Eligible recipients are Wisconsin small businesses or individual entrepreneurs with significant growth potential. All grant proceeds must be spent in-state. Applicants do not actually receive funding until approval of their federal application. SBIR Phase I applicants are not eligible for funding under this program, since Phase I projects are evaluated on scientific and technical merit and are typically funded at 100%, plus indirect cost. Awards are limited to supporting companies that are relatively new to the SBIR process. While the statute maximum applies, TMB participation will typically be limited to \$10,000, or a percentage of the match requirement.

PROGRAM	CDBG - Economic Development/Revolving Loan Fund
SECTOR	BUS, ECON
TYPE OF SUPPORT	Grant
AMOUNT - HIGH	\$1,500,000
DESCRIPTION	Grants are issued to units of general local government, which in turn make grants or loans to businesses in their jurisdiction for the purpose of economic development projects. These startup and expansion projects create jobs in communities. Loan repayments are used to capitalize the community's Revolving Loan Fund (RLF). The maximum award is 50% of eligible project costs, \$1.5 million at most. Funds are typically \$3,000-\$10,000 per full-time job created.
TARGET AREA	Regionwide
ELIGIBILITY/PROCESS	Eligible communities are "non-entitled" units of general local government including cities, villages, or towns with population less than 50,000 people and which are not members of federal entitlement districts. Communities enter into a written three-party contract with Commerce and a private, for-profit sub-recipient engaging in an economic development project which meets one of three objectives: Benefit to low to moderate income persons; prevention or elimination of slums or blighted area; or, urgent local need. The contract establishes award responsibilities, planned results and expected performance levels. Under the contract, sub-recipients agree to submit regular performance reporting, attest to and document their performance, and authorize Commerce and the local government to perform site audits. PROGRAM	Milk Volume Production - Milk Volume Production Program (MVP)
SECTOR	AG
TYPE OF SUPPORT	Loan
AMOUNT - HIGH	\$200,000
DESCRIPTION	This source of gap financing is available to dairy producers who plan to increase milk production by expanding herds or through other capital investments. The loan is 7 years in duration with a fixed interest rate of 2%. Loans are \$20,000-\$200,000, or \$500 per cow added. The program involves the applicant, Dept. of Commerce, and local municipality (usually the County). Loan repayments go directly to the municipality's revolving loan fund.
TARGET AREA	Regionwide
ELIGIBILITY/PROCESS	Eligible recipients are Wisconsin dairy producers that are planning capital investments that will increase Wisconsin's milk production. Requirements include job creation, adding cows, and investment in buildings and equipment. Eligible project costs are only the cost of adding cows.

PROGRAM	Industrial Revenue Bond
SECTOR	BUS
TYPE OF SUPPORT	Bond
AMOUNT - HIGH	\$10,000,000
DESCRIPTION	The Department of Commerce grants bonding authority to municipalities to issue bonds on behalf of a business. Payments are made by the business; the bond is not a general obligation of the municipality. Interest is exempt from federal income taxes. Bonds are used to finance the construction of manufacturing facilities. There are also limited opportunities for non-manufacturing projects that are available to non-profits. A maximum of \$10,000,000 can be issued by the municipality.
TARGET AREA	Regionwide
ELIGIBILITY/PROCESS	Eligible activities include land acquisition, construction or expansion of facilities, equipment purchases made by businesses, and bond issuance costs. Eligible recipients include manufacturers, defined by the federal tax code as any type of processing which results in a change in the condition of tangible property. Manufacturing does not include the provision of recreational services, wholesaling, retailing, or repair services.

PROGRAM	Recovery Zone Facility Bond (RZFB)
SECTOR	BUS
TYPE OF SUPPORT	Bond
AMOUNT - HIGH	No Limit
DESCRIPTION	Recovery Zone Facility Bonds (RZFBs) are a category of private activity bonds that provide tax-exempt financing for projects which historically would not qualify, including large manufacturing plants, distribution centers, hotels and retail businesses.
TARGET AREA	Regionwide
ELIGIBILITY/PROCESS	RZFBs may be issued for any depreciable property if it is a new use in a recovery zone and if the proceeds go to a "qualified business." "Qualified business" is defined as any trade or business except for residential rental property or prohibited uses, which include any private or commercial golf course, country club, massage parlor, hot tub facility, suntan facility, racetrack or other facility used for gambling, or any store the principal business of which is the sale of alcoholic beverages for consumption off premises. "Counties and large municipalities, (a municipality with a population in excess of 100,000) with an allocation of RZFB bonding authority can designate areas within their jurisdictions as recovery zones. There are no specific rules or guidelines for designating a recovery zone other than these are areas that have either (1) significant poverty, unemployment, home foreclosure or general distress, or (2) any area affected by military realignment, or (3) any area that has been designated as an empowerment zone or a renewal community. There are no specific distress levels or parameters that must be met before a designation can be made. Entire counties can be designated as recovery zones.

PROGRAM	Wisconsin Diesel Truck Idling Reduction Grant
SECTOR	ENV
TYPE OF SUPPORT	Grant
AMOUNT - HIGH	50% of cost
DESCRIPTION	Grants are awarded to freight carriers headquartered in the state through June 2011 to purchase and install idling reduction units for newer heavy-duty diesel truck tractors. Idling reduction units provide an alternate source of power used to heat, cool, or provide electricity to the cab or other parts of a truck in lieu of operating the truck's main drive engine to power these services. Idling technologies include auxiliary power units, battery powered HVAC units, direct fired/heater/bunk heater units, energy recovery systems, and others.
TARGET AREA	Regionwide
ELIGIBILITY/PROCESS	Up to 50% of the cost to purchase, install, and field test one or more idling units is available for funding. The number of units Commerce will fund is dependent on the fleet size, but no more than 20% of the program appropriation may be awarded to one applicant in any fiscal year or calendar year. Shipping, operation, and maintenance costs are not eligible. Eligible recipients include common, contract, or private motor carriers headquartered in the state and installing an idling reduction unit on a 1999 model or later diesel truck engine. Any individual applying for grants must own and operate the truck, and any owner/operators must reside in Wisconsin. Awards are chosen randomly using a computer-generated lottery system. Funding is not available for units already installed prior to July 1 in year application is received.

PROGRAM	Clean Water Fund Program: Small Loan Program
SECTOR	ENV
TYPE OF SUPPORT	Loan
AMOUNT - HIGH	N/A
DESCRIPTION	Within the Clean Water Fund Program (CWFP), there is a subprogram called the Small Loan Program (SLP). The SLP provides municipalities a more streamlined, less costly approach to financing wastewater treatment or storm water projects that have total estimated project costs of \$1,000,000 or less. The program is designed to reduce the interest rate on loans from the State Trust Fund (the Board of Commissioners of Public Lands) used to finance eligible projects.
TARGET AREA	Regionwide
ELIGIBILITY/PROCESS	Local governments can apply. If the municipality takes out a loan from the State Trust Fund for the planning, design, and construction of wastewater treatment facilities or structural urban BMPs for storm water, the municipality may then apply for an interest rate subsidy through the SLP. An interest rate subsidy would help the municipality pay the interest costs on its State Trust Fund loan.
